Professional Summary

Professional with over 20 years of experience in Customer Experience and Operations, with recent work in Product, UX, and digital transformation. Experienced in connecting business, technology, and users by translating needs and operational problems into requirements, user stories, acceptance criteria, and improvements tracked through indicators. Background in B2B SaaS and public services, including Product Discovery, journey mapping, backlog organization and prioritization support, solution validation (UAT/OAT), A/B testing, and agile methods.

Key Results

- 71% reduction in Lead Time for the City of Marica's service request flow, from approximately one week to up to 48 hours.
- 27% fewer recurring requests and a 31% reduction in average resolution time at Habitat Consultorios Inteligentes.
- Created more than 100 knowledge materials, including articles, FAQs, videos, and guidance for users, chatbots, and training.
- Participated in the implementation of Virtual Service Points across three locations in Marica.

Professional Experience

Digital Product Analyst | User Journey

City of Marica | Jan 2025 - Apr 2026
- Worked at the interface between business areas, users, and technology, structuring requests and translating needs into requirements, acceptance criteria, and development or digital-service improvement actions.
- Contributed to restructuring the request workflow in Jira by organizing request registration, tracking, and validation, reducing Lead Time by 71%, from approximately one week to up to 48 hours.
- Monitored the triage of critical requests against a target of up to 24 hours, distinguishing this target from full request resolution.
- Participated in Discovery, journey and process mapping, requirements gathering, stakeholder alignment, and delivery validation and acceptance.
- Participated in implementing Virtual Service Points across three locations, adapting the Federal Revenue Service model to the municipal context.
- Contributed to the concept of the institutional MarIA avatar, including problem understanding, personas, journey, communication guidelines, and service requirements.

Product & Customer Experience Analyst

Habitat Consultorios Inteligentes | Oct 2023 - Jan 2025
- Worked at the interface between customers, operations, and development in a B2B SaaS

environment, identifying journey friction and bringing user evidence into improvement discussions.
- Contributed to a 27% reduction in recurring requests and a 31% reduction in average resolution time through service-flow improvements, knowledge organization, and user guidance.
- Supported backlog structuring and refinement, breaking needs into user stories and defining acceptance criteria. Final prioritization decisions remained with the product owner.
- Participated in Backlog Refinement, Sprint Planning, Daily Scrum, Sprint Review, and Sprint Retrospective, tracking blockers, routing impediments, and supporting delivery validation.
- Followed A/B tests and UAT/OAT validations to observe behavior, usability, and completion of the expected action.
- Structured more than 100 knowledge materials segmented by profile and journey, used by customers, chatbots, and training programs.

Operations Analyst | Customer Onboarding
SHV Energy | Jan 2018 - Jun 2023
- Worked on onboarding processes and the customer journey for LPG services, connecting customer service, logistics, and internal teams.
- Monitored initial deliveries and consumption history to help identify patterns and support the transition to scheduled supply.
- Mapped processes, identified bottlenecks, standardized guidance, and documented operations with a focus on predictability and customer experience.
- Supported workflow validation and cross-team alignment to address requests and maintain service continuity.

Earlier Experience

Previous experience in Customer Experience, customer service, retention, and operations at Supergasbras, Peixe Urbano, Nextel, and Contax.
